Volta Finance Limited is incorporated in Guernsey under the Companies (Guernsey) Laws, 1994 to 1996 (as amended) and listed on Euronext Amsterdam. Its investment objectives are to preserve capital and to provide a stable stream of income to its shareholders through dividends. For this purpose, it pursues a multi-asset investment strategy targeting various underlying assets. The assets that the Company may invest in either directly or indirectly include, but are not limited to: corporate credits; sovereign and quasi-sovereign debt; residential mortgage loans; automobile loans. Volta Finance Limited's basic approach to its underlying assets is through vehicles and arrangements that provide leveraged exposure to some of those underlying assets.

Volta Finance Limited has appointed AXA Investment Managers Paris, an investment management company with a division specialised in structured credit, for the investment management of all its assets.

## **Corporate Credits**

Investment grade, sub-investment grade and unrated credits. These may include industrial companies as well as financial institutions (such as banks), among others. The Company uses the term "corporate credits" to refer both to cash obligations (bonds or loans) of corporate or other commercial borrowers and to synthetic arrangements (such as credit default swaps) referencing these entities.

The Company's focus in this area is on acquiring or creating leveraged exposure to diversified portfolios of these credits (e.g., through bespoke collateralised swap obligations ("CSOs")). The Company includes in this Primary Target Asset Class cash and synthetic CDOs/CSOs that have corporate credits a majority of which are investment grade.

## **Asset-Backed Securities**

The Company's initial focus in this area is on residual income positions of asset-backed securities, although the Company may also invest in debt tranches of ABS.

## **CDOs**

The Company intends to invest in the securities of collateralised debt obligations, collateralised loan obligations (CLO), collateralised synthetic obligations and similar leveraged investment vehicles (collectively "CDOs").

The Company's focus in this Primary Target Asset Class is through residual income or mezzanine debt positions of CLOs actively managed.
